Dhawahi Al Ayin Trading Est

Fact File

- Dhawahi Al-Ayin Trading is a Oman based company providing a trading gateway with selective and high quality services that offer international business solutions spanning three continents.
- Established in 2002 as a local trading company for Middle East business enterprises, Dhawahi has developed into a local and internationally renowned trading platform for specialized brand development and foreign company market entry.
- With a long term global understanding of general trading requirements having serviced the Middle East and other global regions, our combined experience and professionalism allow us to create maximum performance and highest results.

Dhawahi Al Ayin Trading Est

Objectives

- To manage and coordinate existing and future company requirements in relation to the development of international trading.
- To improve and maximize the combined working capabilities and existing company infrastructure.
- To represent companies in the search of new business and in particular the commissioning of new project works. With specific attention to targeting the Middle East network of developers and property investors.

Dhawahi Al Ayin Trading Est

Strategy

- Our strategy is to concentrate on developing project business while paying specific attention to creating an exclusive trading network. Project business is extremely competitive and our foundation within the international business communities is laid within a network as trading professionals.
- As already proved, our strategy and goals are to successfully introduce viable business that will generate future sales and increased profitability.
